

MMCAP DSCSA

Direct Contract Name	Third party or direct	How to obtain data
Vaccines		
FFF	TraceLink and Direct	FFF packing slips are compliant with the 3T information. FFF is also utilizing TraceLink and customers are welcome to get set up with Tracelink. Once customers are set up with TraceLink and connected to FFF through TraceLink, FFF is able to send their Advanced Shipping Notification (ASN's) to their portal. The link below is to the FFF website that has all the information customers need to get set up with TraceLink. http://www.fffenterprises.com/partners/supply-chain-safety.html
GSK	Direct	<p>GSK is sending TI/TS on the packing list that is sent with every shipment (GSK is not required to send Transaction History as these shipments are the first in the chain of ownership)</p> <p>- GSK can provide historic copies of packing lists (up to 6 years) upon request to the Vaccine Service Center</p> <p>Contact information for the Vaccine Service Center:</p> <ul style="list-style-type: none"> -Tel: Vaccine Service Center at 866-GSK VACC (866-475-8222) -Email: Vaccine.service-center@gsk.com <p>In addition, GSK can send TI/TS via an EDI 856 Advance Ship Notice (ASN). This document can be sent directly to GSK customers or to a third party solution provider.</p>
McKesson Med-Surg	Direct	<p>A McKesson Medical-Surgical account number is necessary in order to register for McKesson SupplyManagerSM which is where 3T data will be stored. Customers will need to log into McKesson SupplyManagerSM to obtain 3T data. If customers need a SupplyManager login they should contact their McK account manager or visit https://mms.mckesson.com/portal/portal.register.mck.</p>
Merck	Direct	<p>Every shipment of product subject to DSCSA contains a packing list, which contains the required TI/TH/TS. Direct purchasing business partners who currently receive Advanced Shipping Notices (ASN) will also receive the TI/TS/TH information as part of the ASN file. For those direct purchasing business partners who do not currently receive ASNs, but wish to begin doing so, Merck will engage in discussions regarding development and test of ASNs upon request. For business partners that receive drop shipments from Merck on behalf of your wholesaler or distributor, the Merck packing list will contain all information required by DSCSA. If you have any questions or concerns, please contact Merck at USSerialization@merck.com.</p>

Direct Contract Name	Third party or direct	How to obtain data
PaxVax	Direct	PaxVax universal packing slip (from SAP) will include the three requirements for all customers according to DSCSA.
Pfizer	TraceLink	Pfizer has partnered with TraceLink to make the required transaction documents available. TraceLink is Pfizer's selected vendor for all DSCSA and product tracing requirements. Through TraceLink, members can view the transaction documents via a secure electronic portal. TraceLink portal access is available to all Pfizer customers at no charge to them. To enroll: http://tracelink.com/network-enrollment-Pfizer . Should you have any technical questions regarding the secure portal or TraceLink functionality, please contact TraceLink directly at NetworkServices@tracelink.com . Pfizer Customer Service can be reached at cigadmin@pfizer.com or 1-800-533-4535.
Sanofi Pasteur	TraceLink	To establish access to the TraceLink portal, it is necessary to provide the following information for your DQSA Business Contact at OPROrders@sanofipasteur.com . 1. Company Name: 2. DQSA Business Contact Name: (First, Last): 3. DQSA Business Contact Email Address: 4. DQSA Business Contact Phone Number: 5. Preferred Method of receiving Transaction Documents (EDI ASN or email): Once this information is received, the DQSA Business Contact will have access to your facilities specific documents within the TraceLink web portal. The DQSA Business Contact will receive an email with further directions to complete. This will include the ability to create additional usernames to view historical transaction documents. In order for your facility to have the ability to access transaction documents for all shipments at any time, Sanofi Pasteur recommends you register for the portal. Should you have any questions, contact SP customer service at 1-800-VACCINE (1-800-822-2463).
Pharmaceutical Repackaging		
Remedy Repack	None needed	Remedy supplies MMCAP customers with TH data. Customers will send us the TH they are given from their vendor/wholesaler and Remedy Repack creates a TH back to the member that shows the product was repackaged. Repackaging companies do not take ownership of products. DSCSA 3T data should be obtained from the wholesaler products were purchased from. Contact customer service for further information 1.866.845.3791.

MMCAP DSCSA

Direct Contract Name	Third party or direct	How to obtain data
