WSCA-NASPO COMPUTER CONTRACTS

BULLETIN NO. 7

Unit/Configuration \$ Limit Increased

The Master Price Agreements with Apple, Dell, Gateway, Hewlett Packard, IBM, and MPC have been amended to increase the unit/configuration limits on Bands 1 – Servers; 2 – Desktops; and 4 – Auxiliary Storage from \$50,000 to \$100,000. The amendments are based on the Contractors' responses to the RFP that opened on November 7, 2005.

The amended MPA's will be on our website this week.

Negotiations with Sun Microsystems, who also responded to this RFP, should be completed shortly. Their information will be added to our website when the MPA has been signed and their WSCA-specific website has been approved.

Remember, as these Amendments change the terms and conditions of the Master Agreement, which are incorporated in your entity's Participating Addendum, you **MUST** amend your Participating Addendum if you do **NOT** want to allow your agencies to avail themselves of the increased unit/configuration \$ limit.

If you have any questions, please e-mail them to one of us:
