# I. INTRODUCTION

## A. INTENT AND PURPOSE OF THIS REQUEST FOR PROPOSALS (RFP)

The Materials Management Division (MMD) of the Minnesota Department of Administration (Admin) is requesting proposals on behalf of the State of Minnesota, the Western States Contracting Alliance (WSCA), and the National Association of State Procurement Officials (NASPO) from manufacturers of computer equipment that can be packaged with audio visual equipment for use in a classroom environment.

**WSCA/NASPO and MMD are creating a new band for contracts as a result of feedback from participating states about monitor acquisition habits. The original RFP, issued in February, 2004, was based on the assumption that monitors were almost always purchased with the purchase of a CPU. This assumption has proven inaccurate. Given the changes in the monitor industry, replacing monitors independent of purchasing a new CPU has become much more common. This is especially true with the maturity of LCD monitor options.**

**It is to be strictly understood that the resulting contracts are not for the purchase of audio visual products (such as televisions), but for monitors for personal computers. These may vary from small desk top units (15") to larger, wall mounted units (50") that might serve in a classroom or conference room setting, but in any case connected to a personal computer. In other words, they are for classroom and/or desk top divisional applications. These monitors may be replacements for monitors purchased originally as part of a package.**

**The resulting contracts, or added bands if the proposer is already under contract to WSCA/NASPO, will expire on August 31, 2007 – at the same time the current WSCA/NASPO 2004-2009 PC Contracts expire.**

Contractors must provide warranty and maintenance services on ALL equipment that is offered and purchased through the resulting contracts. Delivery, support, warranty, and maintenance may be provided by the contract awardees using subcontractors. The contract awardee is still responsible for the timeliness and quality of all services provided by individual subcontractors. Subcontractor participation will be governed by individual Participating State procurement officials, who have the sole discretion to determine if they will accept services from a subcontractor. Contractors may offer, but participating states and entities do not have to accept, limited professional services related **ONLY** to the equipment and configuration of the equipment purchased through the resulting contracts.

“Educational” offerings, including special purpose educational software included as part of the original hardware equipment purchase, are included in this RFP. The specific rules and restrictions of these “educational” offerings must be detailed in the response. This Request for Proposals **IS NOT** for a one-stop, meet-any-and-all requirements contract, nor is it for the purchase of software or peripherals **NOT** included as part of an equipment package purchase under a resulting contract. Factory warranted upgrades are acceptable products, at the option of individual Participating State directors or entities. Digital Cameras and televisions are **NOT** acceptable products. Additionally, this Request for Proposals **IS NOT** a reseller contract. It is the intent of this RFP to contract with equipment manufacturers for the **PURCHASE** of the equipment approved for sale under the contract. Each state represented by WSCA or NASPO that chooses to participate in this contract independently

has the option of contracting for a one-stop shop contract, contracts with resellers or any other kind of PC or computer goods or services.

It is the further intent of this RFP that leasing or rental agreements are not included in the Master Price Agreements. Each Participating Entity is allowed to negotiate leasing or rental agreements into their Participating Addendum, if they have the legal authority to enter into these types of agreements without going through a competitive process.

Potential responders should be aware of several limitations and boundaries intended by the WSCA Directors in supporting the issuing of this RFP.

- The resulting contracts are **NOT** for the offer and purchase of major, large hardware or hardware and software offerings. In general, individual units/configurations should not exceed \$50,000 each. It is the expressed intent of some of the Participating States to set this level at not to exceed \$25,000 each. This **IS NOT** a restriction on how many units/configurations can be purchased, but on the value of each individual unit/configuration. Individual Participating States may set state specific limits in a participating addendum, with the prior approval of the WSCA Directors.
- Contract awardees should assume that the pricing accepted reflects individual or small quantity purchases. If a Participating State, or a group of Participating States or entities within a state(s), chooses to focus purchases on a "state configuration," this configuration will be defined and then competed within the pool of contract awardees for specific pricing. These strategic competitions that exceed \$500,000 in total value must be reported to the MMD Contract Manager by the each Contractors participating in the competition.
- MMD and the WSCA Directors acknowledge that individual units and configurations offered in 2006 will evolve during the potential life of the resulting contracts. It is our intent to adhere to the following processes in dealing with this change, evolution.

Substitution of units/configurations: MMD and the WSCA Directors acknowledge that individual units and configurations may stop being produced during the life of the resulting contracts. Substitution of different units and configurations will be permitted with the prior written approval of the Contract Administrator. This substitution is at the sole discretion of the Contract Administrator, subject only to review and approval of the Procurement Manager.

Addition of units/configurations: MMD and the WSCA Directors acknowledge that with the evolution of technology, new, emerging units and configurations will develop. Addition of these new, emerging units may be permitted, with the prior approval of the Contract Administrator and the WSCA Directors. The addition of new, emerging units and configurations is at the sole discretion of the Contract Administrator, subject only to review and approval of the WSCA Directors.

## **B. GENERAL GUIDANCE AND EXPECTATIONS FOR THIS REQUEST FOR PROPOSALS (RFP)**

To qualify for this solicitation, Responders must, at a minimum, manufacture the equipment being proposed.

If the responder is not the manufacturer of the equipment, then the responder **MUST** have the legal documentation necessary to show that the RESPONDER is directly responsible and liable for the warranty and maintenance on ANY product they are proposing under this solicitation.

Being “directly responsible and liable for the warranty and maintenance” means that the RESPONDER must provide warranty and maintenance call numbers, accept, process, and respond to those calls, and be legally liable for and pay for those warranty and maintenance (under warranty) activities.

“Proof” of this relationship could be provided by a binding agreement between the RESPONDER and some other entity, outlining this relationship and assigning required responsibilities. “Proof” must be submitted with the RESPONDER’s proposal. The agreement between the RESPONDER and the manufacturer must be valid for the period from the due date of the responses on September 18, 2006, through August 31, 2009.

This relationship is NOT, call “them”, it is call US (the responder) and we will fix it or assist you in having it fixed.

In addition, each Responder must propose a Takeback Program as specified in Section IV, Paragraph B14.

Contractors who were awarded a Contract based on the RFP from Manufacturers of Personal Computer Equipment and Related Devices that was issued on February 9, 2004, need not respond to all of the requested information in this RFP. These Contractors need only to respond to:

Section III, Response Format and Organization

Section IV. Specifications. Items:

- 2. Products and Services Overview, paragraph a. Breadth of Offer,
- 8. Pricing Level and Volume Discount Guarantees
- 9. Products and Services Schedule
- 10. Entire Proposal in electronic Format
- 14. Cost in Section IV. Responses to this RFP are not restricted to only those vendors who hold current WSCA/NASPO Contract. Therefore, for pricing comparison purposes, responders should respond to all of the pricing Bands where they have products available, even if those products are already covered by a current WSCA/NASPO Contract.
- Appendices D through H.

If any of these Contractors are successful awardees in this RFP, the Contractor’s Master Price Agreement will be amended to include these new offerings.

The primary objective is to establish permissive Master Price Agreement(s) with Contractors who are able to provide variety of monitors so that Purchasing Entities may order product(s) appropriate for their needs. This solicitation is focused on classroom and/or desk top divisional applications.

The second objective is to obtain greater volume-based price discounts resulting from the administrative savings that the Contractor(s) will accrue from the maintenance of a single, comprehensive Master Price Agreement for multiple governmental jurisdictions.

All NASPO members in good standing may use the resulting Master Price Agreements. In addition, the WSCA directors may authorize state and local governmental entities throughout the nation the use of the Master Price Agreements, subject to verification from the individual State Procurement Director and local statutory provisions allow for use of these types of agreements.

This procurement will result in a **LIMITED** multiple source award(s).

### **C. SUMMARY SCOPE OF WORK**

The awarded Contractor(s), or its approved subcontractors, shall accept purchase orders and payments from and deliver products and services to authorized Purchasing Entities. Subcontractor participation is governed by the individual Participating State or Participating Entity procurement official. Contractors are required to provide warranty and maintenance services on equipment that is purchased.

### **D. SCOPE OF PROCUREMENT**

The Master Price Agreements, or amendments to current MPAs, shall become effective on or about November 1, 2006, and will be in effect until August 31, 2007. The MMD reserves the option of extending the agreements on an annual basis for two (2) additional one-year terms or portions thereof.

It is anticipated that new Contractor(s) (those that do NOT have a current Master Price Agreement) will be required to make websites available to communicate with Participating Entities about products and services that are available through their Master Price Agreement. NO ORDERS may be issued or accepted for delivery under the new Master Price Agreements until the new contracts become effective, which will occur when the new Contractor's website is approved; or when the current Master Price Agreements are amended, which will occur when the specific product packages have been approved to be added to the current website.

The scope of procurement includes the purchase of a line of monitors, examples of which are shown in Appendix B. Contractors shall not provide any form of application development services or general consulting professional services under the terms and conditions of the Master Price Agreement.

**“Contract”** means an agreement for the procurement of items of tangible personal property or services.

**“Contract Administrator”** means the person or designee authorized by MMD to manage the Master Price Agreements, relationships with Purchasing Entities, and all actions related to the current Master Price Agreements and those that will result from this RFP.

**“Contractor”** shall mean successful Responder who enters into a binding Master Price Agreement.

The Energy Star program makes identification of energy efficient computers easy by labeling products that deliver the same or better performance as comparable models while using less energy and saving money. Energy Star qualified computers and monitors automatically power down to 15 watts or less when not in use and may actually last longer than conventional products because they spend a large portion of time in a low-power sleep mode. For additional information on the Energy Star program, including product specifications and a list of qualifying products, visit the Energy Star website at <http://www.energystar.gov>.

**“Equipment”** means monitors.

**“Evaluation Committee”** means a body approved by the WSCA Directors and designated by the MMD to perform the evaluation of Responders’ proposals.

**“Finalist”** is defined as an Responder who meets all the mandatory specifications of the Request for Proposal and whose score on evaluation factors is sufficiently high enough to qualify that Responder for a positive recommendation by the Evaluation Committee.

**“Intent to Participate”** means the form executed by a State Procurement Official that describes the cooperative procurement and signifies the State’s willingness to enter into the cooperative procurement. For this solicitation, Participating States shall complete a Participating Addendum.

**“ISO 14001”** is the conformance standard within the family of ISO 14000 documents developed by the International Organization for Standardization (ISO) in Geneva, Switzerland. Similar in structure to the ISO 9000 quality management system standard, ISO 14001 outlines key requirements companies should comply with in order to operate in an environmentally responsible manner. Utilizing ISO 14001, companies can merge environmental programs into one coherent system to efficiently manage all environmental activities. In short, ISO 14001 provides organizations with a way to demonstrate to their customers that their environmental processes and impact are effectively managed, continually improving, and part of the corporate management system. For more information, please refer to [www.iso.org](http://www.iso.org).

**“Lead State”** means the State conducting this cooperative solicitation and centrally administering any resulting Master Price Agreement(s). For this solicitation, the Lead State is Minnesota.

**“Local-Area-Network” (“LAN”)** refers to a high-speed, low-error data network covering a relatively small geographic area. LANs connect workstations, peripherals, terminals, and other devices in a single building or other geographically limited area. Wireless transmission components and security devices are included. Cable and components required for the installation and operation of a LAN are included if installation services are purchased. A third party may manufacture LAN hardware and software. Public data, voice or video transport services are excluded as well as hardware and software required in supporting a WAN.

**“Mandatory”** The terms “must” and “shall” identify a mandatory item or factor. **Failure to meet a mandatory item or factor will result in the rejection of the Responder’s proposal.**

**“Manufacturer”** means the company that designs, assembles, and markets the computer and audio-visual equipment referenced in this RFP. The manufacturer’s name(s) shall appear on the computer equipment. **The Contractor(s) shall provide the warranty service and maintenance for equipment on a Master Price Agreement as well as a Takeback Program.**

**“Master Price Agreement”** means the contract that MMD will approve that contains the foundation terms and conditions for the acquisition of Contractor’s products and/or services by Purchasing Entities. The “Master Price Agreement” is a permissive price agreement. In order for a Purchasing Entity to participate in a Master Price Agreement, the appropriate state procurement official or other designated procurement official must be a Participating State or a Participating Entity.

**“Materials Management Division” or “MMD”** means the procurement official for the State of Minnesota or a designated representative.

**“NASPO”** means the National Association of State Procurement Officials

**“Participating Addendum” or “Participating Addenda”** means a bilateral agreement executed by the Contractor and a Participating State or political subdivision of a State that clarifies the operation of the Price Agreement for the State or political subdivision concerned; e.g., ordering procedures specific to a State or political subdivision, and other specific language or other requirements. Terms and conditions contained in a Participating Addendum shall take precedence over the corresponding terms in the Master Price Agreement. Additional terms and conditions may be added via the Participating Addendum. However, a Participating Addendum may not alter the scope of the master price agreement. Contractor(s) shall submit a copy of all proposed participating addenda to the Contract Administrator PRIOR to the Contractor executing the participating addendum.

**“Participating State” or “Participating Entity”** means a member of NASPO (Participating State) or a political subdivision of a NASPO member (Participating Entity) who has indicated its intent to participate by signing an Intent to Participate, or who subsequently signs a Participating Addendum where required, or another state or political subdivision of another state authorized by the WSCA Directors to be a party to the resulting Master Price Agreement through the execution of a participating addendum.

**“Permissive Price Agreement”** means that placement of orders through the price agreement is discretionary with Purchasing Entities. They may satisfy their requirements through the price agreement without using statutory or regulatory procedures (e.g., invitations for bids) to solicit competitive bids or proposals. Purchasing Entities may, however, satisfy requirements without using the price agreement as long as applicable procurement statutes and rules are followed.

**“Price Agreement”** means an indefinite quantity contract that requires the Contractor to furnish products or services to a Purchasing Entity that issues a valid Purchase Order.

**“Procurement Manager”** means the person or designee authorized by MMD to manage the relationships with WSCA, NASPO, and Participating States/Participating Entities.

**“Products and Services Schedule”** or **“PSS”** refers to a complete list of all equipment and/or service categories, the Contractor is proposing be included in the Contract. Once approved by the Contract Administrator, all such Products and services shall be listed on a Contractor-supplied web site accessed via a URL. **The Contractor(s) shall provide the warranty service and maintenance for equipment on a Master Price Agreement as well as a Takeback Program.**

**“Proposal”** or **“Bid”** or **“Offer”** generally refers to the documents submitted in response to a solicitation, whether denominated as an invitation to bid, invitation for bid, request for proposal, or otherwise. **“Responder”** or **“Bidder”** similarly refers to the person, company, or other entity submitting the proposal or bid that constitutes an offer capable of acceptance, regardless of the solicitation method used. This request for proposal will use the terms **“Proposal”** and **“Responder”**.

**“Purchase Order”** means an electronic or paper document issued by the Purchasing Entity that directs the Contractor to deliver Products or Services pursuant to a Price Agreement.

**“Purchasing Entity”** means a Participating State or another legal entity, such as a political subdivision, properly authorized by a Participating State to enter into a contract for the purchase of goods described in this solicitation. Unless otherwise limited by statute, in this solicitation or in a Participating Addendum, political subdivisions of Participating States are Purchasing Entities and authorized to purchase the goods and/or services described in this solicitation.

**“Qualified Responder”** means a Responder who submits a responsive proposal and who has furnished, when required, information and data to prove that its financial resources, production or service facilities, personnel, service reputation, and experience are adequate to make satisfactory delivery of the services or items of tangible personal property described in the proposal.

**“Request for Proposals”** or **“RFP”** means all documents, including those attached or incorporated by reference, used for soliciting proposals.

**“Servicing Subcontractor/Subcontractor/Reseller Agent”** means a Contractor authorized and state-approved subcontractor who may provide local marketing support or other authorized services on behalf of the Contractor in accordance with the terms and conditions of the Contractor’s Master Price Agreement. A wholly owned subsidiary or other company providing warranty or other technical support services qualifies as a Servicing Subcontractor. Local business partners may qualify as Servicing Subcontractors. Servicing Subcontractors may not directly accept Purchase Orders or payments for Products or Services from Purchasing Entities, unless otherwise provided in a Participating Addendum. Servicing Subcontractors shall be named individually or by class in the Participating Addendum. **The Contractor(s) actually holding the Master Price Agreement shall be responsible for Servicing Subcontractor’s providing warranty service and maintenance for equipment on a Master Price Agreement as well as the Takeback Program.**

**“Software”** means machine-readable object code instructions that are preloaded on equipment. ## G. BACKGROUND INFORMATION

The National Association of State Procurement Officials (NASPO) was formally established on January 29, 1947, in Chicago, Illinois.

NASPO is a non-profit association dedicated to strengthening the procurement community through education, research, and communication. It is made up of the directors of the central purchasing offices in each of the 50 states, the District of Columbia and the territories of the United States. NASPO is an organization through which the member purchasing officials provide leadership in professional public purchasing, improve the quality of purchasing and procurement, exchange information, and cooperate to attain greater efficiency and economy.

WSCA was formed in October, 1993. The purposes of WSCA are to establish the means by which participating states may join together in cooperative multi-state contracting, to ensure the commitment of each participating state, and to provide regular and ongoing assistance to participating states in researching, developing, and administering procurement and contractual specifications and requirements. WSCA maintains a cooperative relationship with the National Association of State Purchasing Officials (NASPO). The mission of WSCA is to implement multi-state contracts to achieve cost-effective and efficient acquisition of quality products and services.

WSCA membership consists of the principal procurement official that heads the state central procurement organization, or designee for that state, from the states of Alaska, Arizona, California, Colorado, Hawaii, Idaho, Minnesota, Montana, Nevada, New Mexico, Oregon, South Dakota, Utah, Washington, and Wyoming.

This process will take place between the dates indicated in Section II, Paragraph A. Discussions SHALL NOT be initiated by the Responders.

## 6. **Selection of Finalists**

The Evaluation Committee will recommend, from the qualified responders, a list of finalists that are deemed most advantageous, taking into consideration the evaluation factors set forth in the RFP, to the Procurement Manager. The Procurement Manager will take these recommendations to the WSCA Directors for approval. Although the stated goal of the procurement is to make limited multiple source award(s), **no minimum or maximum number of awards has been predetermined.**

The Contract Administrator will notify Finalists on the date indicated in Section II, Paragraph A. Only finalists will be invited to participate in the subsequent steps of the procurement.

## 7. **Contract Negotiations with Finalists**

## 8. **Sign Master Price Agreements**

## C. GENERAL REQUIREMENTS

This procurement will be conducted in accordance with Minn. Stat. Ch. 16C.

### 1. **Acceptance of Conditions Governing the Procurement**

Responders must indicate their acceptance of Section II, Conditions Governing the Procurement, in the letter of transmittal. Submission of a proposal constitutes acceptance of the Evaluation Factors contained in Section V of this RFP.

### 2. **Incurring Cost**

Any cost incurred by the Responder in preparation, transmittal, presentation of any proposal or material submitted in response to this RFP shall be borne solely by the Responder.

### 3. **Contractor Responsibility**

The named Contractor(s) shall be solely responsible for fulfillment of the responsibilities under the terms and conditions of the Master Price Agreement. Unless otherwise provided in a Participating Addendum, Purchasing Entities will issue purchase orders and make payments to only the named contractor(s).

### 4. **Servicing Subcontractors**

Responders may propose the use of Servicing Subcontractors. However the Contractor shall remain solely responsible for the performance under the terms and conditions of the Master Price Agreement if Servicing Subcontractors are utilized.

### 5. **Amended Proposals**

An Responder may submit an amended proposal before the deadline for receipt of proposals. Such amended proposals must be complete replacements for a previously submitted proposal and must be clearly identified as such in the transmittal letter. The Evaluation Committee will not merge, collate, or assemble proposal materials.

### 6. **Responders' Rights to Withdraw Proposal**

An Responder will be allowed to withdraw its proposal at any time prior to the deadline for receipt of proposals. The Responder must submit a written withdrawal request signed by the Responder's duly authorized representative addressed to the Contract Administrator.

The approval or denial of withdrawal requests received after the deadline for receipt of the proposals is governed by the applicable procurement regulations.

### 7. **Proposal Offer Firm**

Responses to this RFP, including proposal prices, will be considered firm for ninety (90) days after the due date for receipt of proposals or sixty (60) days after receipt of a best and final offer if one is submitted.

### 8. **Disclosure of Proposal Contents**

All materials submitted in response to this RFP will become property of the MMD and

will become public record after the evaluation process is completed and an award decision made. If the responder submits information in response to this RFP that it believes to be trade secret materials, as defined by the Minnesota Government Data Practices Act, Minn. Stat. § 13.37, the responder must:

- a. clearly mark all trade secret materials in its response at the time of the response is submitted,
- b. include a statement with its response justifying the trade secret designation for each item, and
- c. defend any action seeking release of the materials it believes to be trade secret, and indemnify and hold harmless the State, its agents and employees, from any judgments awarded against the State in favor of the party requesting the materials, and any and all costs connected with that defense. This indemnification survives the State's award of a contract. In submitting a response to the RFP, the responder agrees that this indemnification survives as long as the trade secret materials are in possession of the State. The State is required to keep all the basic documents related to its contracts, including responses to RFPs, for a minimum of seven years.

**IF AN ENTIRE PROPOSAL IS DESIGNATED AS PROPRIETARY OR CONFIDENTIAL, IT MAY BE DISQUALIFIED FROM CONSIDERATION.**

The State agrees to protect all properly identified Contract trade secret material, as the term "trade secret" is defined in Minn. Stat. § 13.37. In the event a request is made for information which the Contractor has identified as "trade secret", the State agrees to notify the Contractor of said request and provide its determination as to whether disclosure is legally required, in addition to anticipated disclosure dates, if any, and to allow the Contractor an opportunity, in its discretion and at its sole expense, to seek a protective order or otherwise protect the confidentiality of the information.

**9. No Obligation**

This procurement in no manner obligates the State of Minnesota, any NASPO member or any Purchasing Entity to purchase of any products or services offered until a Master Price Agreement is signed, a Participating Addendum has been executed by the Contractor, and the Contractor receives and accepts a valid purchase order from an authorized Purchasing Entity.

**10. Termination**

This RFP may be canceled at any time and any and all proposals may be rejected in whole or in part when such action is determined to be in the best interest of the State of Minnesota and/or NASPO and WSCA.

**11. Administration Fees**

The Contractor shall report price agreement utilization and pay the WSCA administration fee in accordance with the terms and conditions of the Master Price Agreement. The WSCA directors approved the level of the WSCA administration fee. The WSCA administration fee is not negotiable. Some states may require an additional fee be paid directly to the State on purchases made by Purchasing Entities within that State. For all such requests, the fee level, payment method and schedule for such reports and payments shall be incorporated in a Participating Addendum that is made a part of the Master Price Agreement. The Contractor may adjust PSS pricing up to the percentage of the additional fee to be paid to an individual state for purchases made by Purchasing Entities within the jurisdiction of that State, upon specific agreement by the Participating Entity in the Participating Addendum. All such

agreements shall have no effect whatsoever on the WSCA fee or the prices paid by the Purchasing Entities outside the jurisdiction of the state requesting the additional fee.

**12. Acceptance of Proposal Contents**

The contents of this RFP and the response of the successful vendor will become contractual obligations, along with the final Contract, if acquisition action ensues. The State is solely responsible for rendering the decision in matters of interpretation of all terms and conditions.

If a Responder discovers any significant ambiguity, error, conflict, discrepancy, omission, or other deficiency in the RFP, the Responder shall immediately notify the Contract Administrator in writing of such error and request modification or clarification of the document.

**13. Governing Law**

The RFP and the Contract shall be construed in accordance with, and its performance governed by, the laws of the State of Minnesota. Except to the extent that the provisions of the Contract are clearly inconsistent therewith, the Contract shall be governed by the Uniform Commercial Code (UCC) as adopted by the State. To the extent the Contract entails delivery or performance of services, such services shall be deemed "goods" within the meaning of the UCC, except when to so deem such services as "goods" is unreasonable.

However, the State reserves the right to negotiate with a successful Responder provisions in addition to those contained in this RFP. The RFP, as revised and/or supplemented, and the successful Responder's proposal will be incorporated into and become part of the agreement.

A Responder shall be presumed to be in agreement with these terms and conditions unless it takes specific exception to one or more of the conditions. Submission by the Responder of its proposed language shall not be viewed as an exception unless the Responder specifically states in the response that its proposed changes are intended to supersede the State's terms and conditions.

RESPONDERS ARE CAUTIONED THAT BY TAKING ANY EXCEPTION THEY MAY BE MATERIALLY DEVIATING FROM THE REQUEST FOR PROPOSAL. IF A RESPONDER MATERIALLY DEVIATES FROM THE GENERAL TERMS, CONDITIONS AND INSTRUCTIONS OR THE SPECIAL TERMS AND CONDITIONS AND/OR SPECIFICATIONS, ITS RESPONSE MAY BE REJECTED.

A material deviation is an exception to the Request for Proposal general or special

terms and conditions and/or specifications that:

- a. Gives the Responder taking the exception a competitive advantage over other Responders, or
- b. Gives the State something significantly different from that which the State requested.

**16. Agreement Deviations**

Any additional terms and conditions, which may be the subject of negotiation, will be discussed only between the State and the selected Responder(s) and shall not be deemed an opportunity to amend the Responder's proposal.

**17. Responder Qualifications**

If the State, on the basis of available evidence, concludes that a particular Responder appears to be insufficiently responsible to ensure adequate performance, the response may be rejected.

Responses that do not comply with the provisions in the RFP may be considered nonresponsive and may be rejected.

**18. Rights Reserved**

- a. Reject any and all responses (or portions thereof) received;
- b. Select, for contracts or for negotiations, a response other than that with the lowest cost;
- c. Waive or modify any informalities, irregularities, or inconsistencies in the responses received;
- d. Negotiate any aspect of the proposal with any Responder and negotiate with more than one Responder;
- e. Request a BEST and FINAL OFFER, if the Evaluation Team deems it necessary and desirable; and
- f. Terminate negotiations and select the next response providing the best value for the State, prepare and release a new RFP, or take such other action as the State deems appropriate if negotiations fail to result in a successful Contract.
- g. The Evaluation Committee also reserves the right to waive mandatory requirements provided that all of the otherwise responsive proposals failed to meet the mandatory requirements and the failure to do so does not materially affect the procurement. This right is at the sole discretion of the Evaluation Committee.

**19. Changes in Contractor Representatives**

The Contractor must notify the Contract Administrator of changes in the Contractor's key administrative personnel, in advance and in writing. Any employee of the Contractor who, in the opinion of the State, is unacceptable, shall be removed from the project upon written notice to the Contractor.

**22. Right to Publish**

The Contractor shall not make any representations of the State's opinion or position as to the quality or effectiveness of the products and/or services that are the subject of this Contract without the prior written consent of the Contract Administrator. Representations include any publicity, including but not limited to advertisements, notices, press releases, reports, signs, and similar public notices.

**23. Ownership of Proposals**

All documents submitted in response to the RFP shall be available to be picked up by the Responders after the expiration of the protest period with the following exception. One (1) complete copy of the each Responder's proposal including the Best and Final Offer, if one was submitted, shall be placed into the procurement file. Those documents will become the property of the State of Minnesota.

Responders may pick up their proposals from the respective representatives from the states that are evaluating proposals in accordance with instructions provided by the respective representatives. Evaluating states may choose to retain one (1) copy for their respective procurement files. States may destroy proposals that were not picked up during the allotted time.

**24. Product and Services Schedules**

The Contractor shall offer only those Products and services that are included on the Contractor's Product and Services Schedule (PSS). 1. By signing and submitting this proposal, the prospective lower tier participant [responder] is providing the certification set out below.
2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal [response] is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.

**34. Affirmative Action.** The State requires affirmative action compliance by its Contractors.

- a. Covered Contracts and Contractor. If the Contract exceeds \$100,000 and the Contractor employed more than 40 full-time employees on a single working day during the previous 12 months in Minnesota or in the state where it has its principle place of business, then the Contractor must comply with the requirements of Minn. Stat. § 363.073 and Minnesota Rules 5000.3400-5000.3600. A Contractor covered by Minn. - b. Minnesota Statutes Section 363.073 requires the Contractor to have an affirmative action plan for the employment of minority persons, women, and qualified disabled individuals approved by the commissioner of Human Rights (commissioner) as indicated by a certificate of compliance. The law addresses suspension or revocation of a certificate of compliance and Contract consequences in that event. A Contract awarded without a certificate of compliance may be voided.
- c. Minnesota Rules 5000.3400-5000.3600 implement Minn. Stat. § 363.073.

These rules include, but are not limited to, criteria for contents, approval, and implementation of affirmative action plans; procedures for issuing certificates of compliance and criteria for determining a Contractor's compliance status; procedures for addressing deficiencies, sanctions, and notice and hearing; annual compliance reports; procedures for compliance review; and contract consequences for noncompliance. - d. Disabled Workers. The Contractor must comply with the following affirmative action requirements for disabled workers.

**"AFFIRMATIVE ACTION FOR DISABLED WORKERS**

- (a) The contractor must not discriminate against any employee or applicant for employment because of physical or mental disability in regard to any position for which the employee or applicant for employment is qualified. The contractor agrees to take affirmative action to employ, advance in employment, and otherwise treat qualified disabled persons without discrimination based upon their physical or mental disability in all employment practices such as the following: employment, upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.
- (b) The contractor agrees to comply with the rules and relevant orders of the Minnesota Department of Human Rights issued pursuant to the Minnesota Human Rights Act.
- (c) In the event of the contractor's noncompliance with the requirements of this clause, actions for noncompliance may be taken in accordance with Minnesota Statutes Section 363.073, and the rules and relevant orders of the Minnesota Department of Human Rights issued pursuant to the Minnesota Human Rights Act.
- (d) The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices in a form to be prescribed by the commissioner of the Minnesota Department of Human Rights. Such notices must state the contractor's obligation under the law to take affirmative action to employ and advance in employment qualified disabled employees and applicants, and the rights of employees and applicants.
- (e) The contractor must notify each labor union or representative of workers with which it has a collective bargaining agreement or other contract understanding, that the contractor is bound by the terms of Minn. Stat. § 363.073, of the Minnesota Human Rights Act and is committed to take affirmative action to employ and advance in employment physically and mentally disabled persons."
- e. Consequences. The consequences of a Contractor's failure to implement its affirmative action plan or make a good faith effort to do so include, but are not limited to, suspension or revocation of a certificate of compliance by the commissioner, refusal by the commissioner to approve subsequent plans, and termination of all or part of this Contract by the commissioner or the State.
- f. Certification. The Contractor hereby certifies that it is in compliance with the requirements of Minn. Stat. § 363.073 and Minnesota Rules 5000.3400 to 5000.3600 and is aware of the consequences for noncompliance.

**35. Hazardous Substances**

To the extent that the goods to be supplied to the State by the responder contain or may create hazardous substances, harmful physical agents or infectious agents as set forth in applicable State and federal laws and regulations, the responder must provide the State with Material Safety Data Sheets regarding those substances (including mercury). A copy must be included with each delivery.

**36. State Requirements**

The Contractor is responsible to present information to State agency and Cooperative Purchasing Venture (CPV) customers regarding product compliance with State requirements. The Contractor's catalog and other marketing materials utilized to offer products under this Contract shall affirmatively state when a product is in compliance with the Americans with Disabilities Act (ADA), the Nonvisual Access Standards (Minn. Stat. Ch. 16C.145), and the Energy Star Standards. The Contractor must also indicate in the catalog or other marketing materials if the product will not operate, is not intended to operate, or will not operate under full manufacturer's warranty, using paper with a post-consumer recycled content of 30 percent or greater. If any descriptive marketing materials are silent as to any or all of these requirements (e.g., ADA compliance, functions utilizing 30 percent recycled content paper), the Contractor agrees that the customer can assume the product meets or exceeds the State requirements.

**37. Organizational Conflicts of Interest**

The Responder warrants that, to the best of its knowledge and belief, and except as otherwise disclosed, there are no relevant facts or circumstances which could give rise to organizational conflicts of interest. An organizational conflict of interest exists when, because of existing or planned activities or because of relationships with other persons:

- a Contractor is unable or potentially unable to render impartial assistance or advice to the State;
- the Contractor's objectivity in performing the work is or might be otherwise impaired; or
- the Contractor has an unfair competitive advantage.

The Contractor agrees that if an organizational conflict of interest is discovered after award, an immediate and full disclosure in writing shall be made to the Assistant Director of the Department of Administration's Materials Management Division that shall include a description of the action the Contractor has taken or proposes to take to avoid or mitigate such conflicts. If an organizational conflict of interest is determined to exist, the State may, at its discretion, cancel the Contract. In the event the Contractor was aware of an organizational conflict of interest prior to the award of the Contract and did not disclose the conflict to the Contract Administrator, the State may terminate the Contract for default. The provisions of this clause shall be included in all subcontracts for work to be performed, and the terms "Contract," "Contractor," and "Contract Administrator" modified appropriately to preserve the State's rights.

**38. Notice to Responders**

Pursuant to Minn. Stat. § 270.66, Contractors are required to provide their Federal Employer Identification Number or Social Security Number. This information may be used in the enforcement of federal and State tax laws. Supplying these numbers could result in action to require a Contractor to file tax returns and pay delinquent tax liabilities. These numbers will be available to federal and State tax authorities and State personnel involved in the payment of State obligations.

- 39. Dispute Resolution Procedures.** Any issue a responder has with the RFP document, which includes, but is not limited to, the terms, conditions, and specifications, must be submitted in writing to the AMS prior to the bid opening due date and time. Any issue a responder has with the Contract award must be submitted in writing to the AMS within five working days from the time the Contract award is made public. The State will respond to any protest received that follows the above procedure.

## Master Price Agreement Terms and Conditions

### WESTERN STATES CONTRACTING ALLIANCE

#### MASTER PRICE AGREEMENT for MONITORS

Number \_\_\_\_\_

This Agreement is made and entered into by \_\_\_\_\_ (“Contractor”) and the Department of Administration (“State”) on behalf of the State of Minnesota, participating members of the National Association of State Procurement Officials (NASPO), members of the Western States Contracting Alliance (WSCA) and other authorized Participating States and Participating Entities.

#### RECITALS

**WHEREAS**, the State has the need to purchase and the Contractor desire to sell; and,  
**WHEREAS**, the State has the authority to offer contracts to CPV members of the State of Minnesota and to other states.

**NOW, THEREFORE**, in consideration of the mutual promises contained herein, the parties agree as follows:

#### INTENT AND PURPOSE

The intent and purpose of this Agreement is to establish a contractual relationship with equipment manufacturers to provide, warrant, and offer maintenance services on **ALL** products proposed in their response to the RFP issued by the State of Minnesota. The Contractor may use subcontractors to provide the warranty and/or maintenance services; however the Contractor will be responsible for working with the equipment manufacturer on behalf of the Purchasing Entity and for the timeliness and quality of all services provided.

It is the further intent of this Agreement that leasing or rental agreements are not included. Each Participating Entity is allowed to negotiate leasing or rental agreements into their Participating Addendum, if they have the legal authority to enter into these types of agreements without going through a competitive process.

This Agreement is **NOT** for the purchase of major, large hardware or hardware and software offerings. In general, individual units/configurations should not exceed \$50,000 each. It is the expressed intent of some of the Participating States to set this level at not to exceed \$25,000 each. This **IS NOT** a restriction on how many units/configurations can be purchased, but on the value of each individual unit/configuration. Individual Participating States and Participating Entities may set specific limits in a participating addendum, with the prior approval of the WSCA Directors.

Contractors may offer, but participating states and entities do not have to accept, limited professional services related **ONLY** to the equipment and configuration of the equipment purchased through the Agreement.

After the thirtieth day, interest may be paid on the unpaid balance due to the Contractor at the rate of one and one-half percent per month. The Purchasing Entity shall make a good-faith effort to pay within thirty (30) days on all undisputed invoices. Payments may be made via a Purchasing Entity's "Purchasing Card".

**C. Payment of Taxes**

Payment of taxes for any money received under this agreement shall be the Contractor's sole responsibility and shall be reported under the Contractor's federal and state tax identification numbers. If a Purchasing Entity is not exempt from sales, gross receipts, or local option taxes for the transaction, the Contractor shall be reimbursed by the Purchasing Entity to the extent of any tax liability assessed.

**8. Termination**

The following provisions are applicable in the event that the agreement is terminated.

**A. Termination for Convenience**

At any time, the State may terminate this agreement, in whole or in part, by giving the Contractor (30) days written notice; provided, however, neither the State nor a Purchasing Entity has the right to terminate a specific purchase order for convenience after it has been issued if the product is ultimately accepted. At any time, the

Contractor may terminate this Agreement, in whole or in part, by giving the Contract Administrator sixty (60) days written notice. Such termination shall not relieve the Contractor of warranty or other Service obligations incurred under the terms of this Agreement. In the event of a cancellation, the Contractor shall be entitled to payment, determined on a pro rata basis, for work or services satisfactorily performed and accepted.

**B. Termination for Cause**

Either party may terminate this Agreement for cause based upon material breach of this Agreement by the other party, provided that the non-breaching party shall give the breaching party written notice specifying the breach and shall afford the breaching party a reasonable opportunity to correct the breach. Notwithstanding any language to the contrary in this Agreement or in any purchase order or other document, a Purchasing Entity may terminate its obligations under this Agreement, if sufficient appropriations are not made by the governing entity at a level sufficient to allow for payment of the goods or services due for multiple year agreements, or if operations of the paying entity are being discontinued. The Purchasing Entity's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final and binding.

A Purchasing Entity shall provide sixty (60) days notice, if possible, of its intent to terminate for reason cited above. ## Trade Secret Information Form

Under Minnesota's Data Practices Act, data submitted in bids or proposals becomes public upon completion of the evaluation process for proposals and negotiations are complete, or upon completion of the selection process for bids. However, "trade secret information" as defined in Minn. Stat. §13.37, subd. 1(b), cannot be disclosed to the public. While the majority of data submitted in bids and proposals is not trade secret information, the following form is needed to assist the state in making appropriate determinations about the release of data provided in a bid or proposal.

**All responders must select one of the following boxes:**

My bid/proposal **does not** contain "trade secret information." I understand that my entire bid/proposal will become public record in accordance with Minnesota Stat. §13.591.

My bid/proposal **does** contain trade secret information because it contains data that:

A. is a formula, pattern, compilation, program, device, method, technique or process;

**AND**

B. is the subject of efforts by myself or my organization that are reasonable under the circumstances to maintain its secrecy; **AND**

C. derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use.

**Complete only if trade secret status is asserted:**

I am claiming that aspects of my bid/proposal contain trade secret information. I have completed the following:

I have clearly marked and placed any data I claim to be "trade secret information" in a separate envelope **AND** I am attaching an explanation justifying the trade secret designation.

**Please note that failure to attach an explanation may result in a determination that the data does not meet the statutory trade secret definition. All data for which trade secret status is not justified will become public in accordance with Minn. Stat. § 13.591.**

By submitting this bid/proposal, responder agrees to indemnify and hold the State, its agents and employees, harmless from any claims or causes of action relating to the state's withholding of data based upon reliance on the above representations, including the payment of all costs and attorney fees incurred by the state in defending such an action.

**ENVIRONMENTAL REPORTS**

**ENVIRONMENTAL PREFERENCE.** A proportional preference of up to 10% will be given for **post-consumer** (PC) recycled content. (Note: No preference will be given for recycled content less than 10%.) For example, 90% recycled content would get a 9% preference, and 30% recycled content would get a 3% preference. The recycled content must be substantiated by the manufacturer's published document, such as a specification sheet or product brochure. The document must accompany the response in order to obtain the preference. **Claims of recycled content without valid documentation included in the response will not receive a preference.**

**POST-CONSUMER RECYCLED CONTENT**

If you want the preference for PC recycled content check here:  Is documentation attached?  Yes  No

**Claims of recycled content without valid documentation included in the response will not receive a preference.**

If all items are the same recycled content percentage, record that here \_\_\_\_\_%  
 If the line items have different percentages, record the percentage per line here: Line 1 \_\_\_\_\_%  
 Line 2 \_\_\_\_\_%  
 Line 3 \_\_\_\_\_%  
 Line 4 \_\_\_\_\_%

(Use a separate sheet if more lines are needed.)

The documentation must be clear and marked to show the applicable recycled content percentage. Failure to state the PC recycled content will result in no preference.

You can still mark your product with the environmental code RC and state a percentage of post-consumer content without documentation, but that will be used for reporting purposes and not to apply a preference.

**ENVIRONMENTAL PRODUCTS AND SERVICES**

**Environmental Characteristics for Reporting Purposes.** The State desires to purchase environmentally responsible goods and services where practicable. To identify these products and report the purchasing results, the State must know the environmentally responsible characteristics of the goods and services offered. Using the list of environmental codes below, specify which line items have environmentally responsible characteristics and enter the appropriate environmental code. The environmental codes\* are:

- |                       |                       |
|-----------------------|-----------------------|
| EE = Energy Efficient | EM = Remanufactured   |
| LT = Less Toxic       | RE = Repair           |
| PB = Plant-based      | US = Used             |
| RB = Rebuilt          | WC = Water Conserving |
| RC = Recycled Content | MU = Multiple Codes   |

Specify: \_\_\_\_\_

(post-consumer: \_\_\_\_\_ %)

TO = Other

Specify: \_\_\_\_\_

RK = Reduced Packaging

NO = None

Enter the appropriate environmental code for each item offered, either after the description of the item, or after

the price.

If all goods and services offered are the same environmental code, enter it here: \_\_\_\_\_

If none of the items being offered have environmental characteristics, please check and initial here:

\_\_\_\_\_.

\*See the next page for definitions of the environmental codes to assist in coding products by the line item.

**Mercury:** As per Minnesota Statutes, the State cannot buy mercury in thermometers and certain other products. Please certify below if your product does or does not contain mercury. The actual product specification will stipulate if mercury is prohibited.

Does your product contain mercury?  Yes  No

If yes, list the components that contain mercury:

### Environmental Codes Definitions

EE (Energy Efficient) - A product that uses less energy (either electricity or fossil fuel) to accomplish its task relative to a comparable product or to an earlier version of the same product by the same manufacturer.

LT (Less Toxic) - A product containing a smaller amount of toxic substances relative to a comparable product or a product reformulated to be less toxic.

PB (Plant-Based) - A product derived from renewable resources, including fiber crops (such as kenaf); chemical extracts from oilseeds, nuts, fruits and vegetables (such as corn and soybeans); agricultural residues (such as wheat straw and corn stover); and wood wastes generated from processing and manufacturing operations. These products stand in contrast to those made from fossil fuels (such as petroleum) and other less renewable resources (such as virgin timber).

RB (Rebuilt) - A product refurbished to a level less than a total remanufacture. The warranty is by the rebuilder, and may be different from the same product when new or remanufactured. Also called reconditioned or refurbished.

RC (Recycled Content) - A product containing materials that have been recovered or diverted from the solid waste stream after consumer use (post-consumer).

RK (Reduced Packaging) - A product presented for use with less packaging or alternative methods of packaging or shipping.

EM (Remanufactured) - A product restored to its original condition by extensive rebuilding, usually given an equal or better warranty than a new product.

RE (Repair) - A product that has had a defect corrected and can again serve its original function. Repairing is a less comprehensive process than either remanufacturing or rebuilding.

US (Used) - A product used or owned before without further manufacture.

WC (Water Conserving) - A product that requires less water to operate or to manufacture than a comparable product, or a different version of the same product from the same manufacturer.

MU (Multiple Codes) - A product that has several significant environmentally responsible characteristics, and could be classified under more than one code, but not one code is predominant.

TO (Other) - A product having environmentally responsible characteristics that does not fit into any of the categories listed above.
